- App’s Introduction

This app is a virtual assistant. In this app you can ask the virtual assistant for answers for different questions belonging to different categories to which it will give answers accordingly.

How do I use the App?

Selecting the category

- To use this option, we have to reply with the name of the category that we need answers for.

Selecting the questions

- Once we choose the category, the virtual assistant will give a reply asking for your questions related to the category. In order to select the category, we have to ask the question to the virtual assistant to which it will give an answer.
